

Cool News & New Stuff

The HOT Button—FUEL cost

The Saturday paper had an article about airlines saving staggering fuel dollar amounts like \$16,000 on a 3-hour trip by lightening their load a little. They removed more than 1000 pounds of excess trash bins, flight supplies and seats. Unbelievable.

NICE Drink Carts

New from Nelson, Iced Beverage Carts! For over 100 years we've manufactured cabinets to hold freezing temperatures, using sawdust and salt in 1898 to the -30 degree refrigeration systems used today. It never occurred to us how easy it was to produce the same well-insulated cart boxes, super duty cart frames for use with ice for vending canned or bottled beverages...till now.

**All Dippers,
All Digital,
All the Time!**

We're Seeing Green

Eco-friendly manufacturing techniques are working their way to the small village of Oak Harbor, Ohio where C. Nelson's manufacturing facility has recently completed a conversion to a new urethane foam insulation, the greenest available.
