## Re-Useable Cold Packs

Great for use with non-refrigerated carts or extra protection in extreme conditions

### *Eliminate Wet & Dry Ice Hassles Forever*

Before each use, freeze the eutectic liquid contained in the plate. . To do this, place the plate in a freezer at a temperature at least 10 degrees below the set point of the plate for 24-48 hours until it is completely solid . Freeze the plate in a flat position. Handle with care when frozen as it is sensitive to shock. Do not expose to high heat (120 deg F.) .
